Verse 1

So long ago, stars collapse massively  
Destroying everything.  
Just to me you smile, just to make me smile.  
I can feel your motion spiral deep inside your mind, your....

Bridge

Dark recess, dark recess of your mind  
Tiny speck, tiny speck of starlight.  
Swimming in this ocean of need  
Oh I'm so greedy for you.

Verse 2

I'd shatter all the stars just to keep you here.  
But you move, and you turn.  
Drifting further out of reach  
Now, I'm standing here, on the beach  
I don't wanna be all alone here in this.

Chorus

Black and white, black and white emptiness. Slowly move, slowly moving useless.  
Without you, its enough to make me...  
Stop me. Stop me. Yeah...

Verse 3

Doctor says, doctor says, what's on your mind.  
I see dying, dying specks of starlight.  
Doctor says, I'm doing fine, doing fine.  
But I'm still hungry for you.

Repeat Chorus.
