Verse 1

Get those cold back-stabbin' bastards if it takes all year
When the sun goes down, head 'em off at the nearest messiah
Come here children, I want you to see this
Watch and then close your eyes

Verse 2

Ain't no use in crying boy cause your daddy's here
They'll wrap that rope real tight and get me right outta here
Come here woman, I want you bear witness
Watch and then close your eyes

Watch as I hang and die
Yes, watch as I hang and die

Verse 3

Take your grandma's Bible up to the top of the hill
When the day crawls thick, break bread with your local pariah
Come here demons, you don't wanna miss this
Watch and as I close my eyes
Yes, watch while I close my eyes

Coda:

They can take anything they want
Hang me out to dry in the autumn sun
But you best believe when all is said and done
Two more crosses stand beside the one

They can make up anything they say
They believe they turn night to day
Promise me when they spill their lies
Promise me you will close your eyes
